

FORM (B): Proposed Industrial Applied Study Project

Section 1: Project Basic Data

- Project-related industrial consultation reference number (from Form A):
- The proposed scientific title for the applied research project:
.....
.....
- Academic College and Department:.....
- Name of the principal investigator (supervising faculty member):.....
- Academic rank and researcher's specific field of study:.....
- Names of research assistants and master's students involved in the work:
 1.
 2.

Section Two: Proposed Scientific and Practical Objectives and Methodology

- :The project's specific strategic and practical objectives (field-measurable objectives)
 1.
 2.

The research and experimental methodology used, in detail, and the stages of its implementation in the laboratory and in the field:

.....
.....

- Final outputs and results that are immediately applicable to industry in the factor:.....
.....

Section Three: Project Implementation Timeline (Simplified Gantt Chart)

- **Phase 1** (Data Collection, Literature Review and Initial Examinations) [Time Range: Week to Week]
- **Phase 2** (Laboratory Tests and Advanced Laboratory Experiments) [Time Range: from Week to Week]

- **Phase 3** (Applying the model to the production line and monitoring performance technically) [Time Range: from Week to Week].
- **Phase 4** (Analyzing the final results and drafting the consulting report) [Time Range: from Week..... to Week.....]

Section Four: Detailed Estimated Financial Budget for the Project

Financial cost item	Breakdown of expenditure items and required resources	Estimated cost in the approved currency
Research team and consultant fees	Rewards for principal investigators, assistants, and graduate students	
Laboratory consumables and equipment	Chemicals, testing materials, study samples	
Fees for external examinations and tests	Advanced testing in the university's central laboratories	
Transportation and field visit expenses	Field travel costs for researchers to production sites	
Administrative fees for Al-Saeed Center	15% operational and supervisory fees for the office and system	
Total estimated project budget	Total of all direct and indirect project costs	

Signature and approval of the research team and center management:

- Signature of the Project Principal Investigator: Date: ... / ... / 202...
- Signature and approval of the Dean of Al-Saeed Center for Scientific Research: Date: ... / ... 202...
